SMALL WORKS ROSTER

The legislation authorizing the expanded Small Works Roster was effective June 8, 2000.

The legislation amends RCW 52.14.110 to remove the maximum $10,000 limitation and refers to RCW 39.04.155 which sets a $200,000 maximum limit. The district can use a single roster or can create separate rosters for different categories of work. The district can require contractors who wish to be placed on the roster to keep a current record on file with the district relating to licenses, registrations, bonding, insurance or other appropriate matters.

The district, at least once a year, must publish notice of the existence of the roster. The district still must establish the roster procedure by resolution. The procedure must provide for obtaining telephone, written or electronic quotations from the contractors on the roster. The contract must be awarded to the lowest responsible bidder based on the quotations. The invitation for quotations must include an estimate of the scope and nature of the work and the materials and equipment to be furnished but need not include detailed plans and specifications. Quotations must be invited from at least five contractors on the roster. If the estimated cost of the project exceeds $100,000 and the district solicits quotations from less than all the appropriate contractors on the roster, the district must provide notice to the remaining contractors by publication, mailing the notice or sending it by fax or other electronic means. The method used is up to the district.

The awarding of the contract to a contractor need not be advertised but, after the award is made, the district must make a record of the quotations that is available to the public for inspection and phone inquiry.

The legislation prohibits the breaking of a project into units to stay below the statutory maximum.
